- houndstooth
- ~~WIFMS~~
- sittin Verona
- Hina NFT
- roses

I'm constantly tempted to replace the Hina NFT photo, so I should skip adding it to the card...

could print in B&W
and color pink by hand

I refuse to draw this much houndstooth by hand so this would have to be done digitally.

Study the rose or just use the site asset photo?

When I am a graffiti artist, you will see Verona sittin' everywhere!
